## A BILL

To support children with disabilities during the COVID–19 pandemic.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

**3 SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Supporting Children  
5       with Disabilities During COVID–19 Act”.

**6 SEC. 2. FINDINGS.**

7       Congress finds the following:

8           (1) A free appropriate public education is a  
9       fundamental educational right of all children with  
10       disabilities, guaranteed by the Rehabilitation Act of

1       1973 (29 U.S.C. 701 et seq.) and the Individuals  
2       with Disabilities Education Act (20 U.S.C. 1400 et  
3       seq.).

4               (2) More than 7,000,000 school-aged children  
5       with disabilities, approximately 13 percent of the  
6       total student enrollment, are currently entitled to in-  
7       dividualized education and related services mandated  
8       by the Individuals with Disabilities Education Act.

9               (3) Nearly 500,000 infants and toddlers, as  
10      well as their families, receive supports and services  
11      under the Individuals with Disabilities Education  
12      Act and these early interventions have been proven  
13      to improve education outcomes.

14               (4) Under the Individuals with Disabilities Edu-  
15      cation Act, schools and lead agencies responsible for  
16      the administration of funds under part C of the In-  
17      dividuals with Disabilities Education Act (20 U.S.C.  
18      1431 et seq.) (referred to in this Act as “lead agen-  
19      cies”) are required to provide early intervention, spe-  
20      cial education, and related services to children with  
21      disabilities, an obligation that requires services out-  
22      lined in a child’s individualized family service plan  
23      (referred to as an “IFSP”) or individualized edu-  
24      cation program (referred to as an “IEP”).

1                         (5) Children with disabilities have been dis-  
2 proportionately impacted by the disruptions to edu-  
3 cation resulting from the COVID–19 pandemic, with  
4 many children with disabilities needing additional  
5 supports and services to meet their IEP and IFSP  
6 goals as the delivery of education and services has  
7 shifted from in-person to remote formats.

8                         (6) Local educational agencies and lead agen-  
9 cies face extra costs associated with adjusting serv-  
10 ices and continuing to provide a free, appropriate  
11 public education while children with disabilities are  
12 receiving services through distance learning and re-  
13 mote service delivery.

14                         (7) Schools are facing unprecedented budget  
15 challenges due to the rising costs of responding to  
16 COVID–19, coupled with State and local revenue  
17 shortfalls.

18                         (8) To ensure that schools and lead agencies  
19 continue to meet the needs of children with disabil-  
20 ities and their families, including providing trained  
21 and certified special educators and education sup-  
22 port specialists, emergency supplemental funding is  
23 needed under the Individuals with Disabilities Edu-  
24 cation Act.

1                             (9) Emergency supplemental funding is also  
2         needed under the Assistive Technology Act of 1998  
3         (29 U.S.C. 3001 et seq.) because services provided  
4         under that Act help ensure that students with dis-  
5         abilities have the technology they need to access  
6         equal educational opportunities.

7     **SEC. 3. SUPPLEMENTAL APPROPRIATIONS.**

8                             (a) IN GENERAL.—The following sums are appro-
