WASHINGTON, DC 20510

April 11, 2018

The Honorable Jerry Moran  
Chairman  
Senate Appropriations Committee  
Subcommittee on Commerce, Justice,  
Science, and Related Agencies  
Washington, D.C. 20510

The Honorable Jeanne Shaheen  
Ranking Member  
Senate Appropriations Committee  
Subcommittee on Commerce, Justice,  
Science, and Related Agencies  
Washington, D.C. 20510

Dear Chairman Moran and Vice Chairwoman Shaheen:

As you consider the Fiscal Year (FY) 2019 appropriations bill for this subcommittee, we respectfully write to request \$120 million in funding for the Part G Youth Mentoring Program, which is administered by the Department of Justice's Office of Juvenile Justice and Delinquency Prevention. This program supports the implementation, delivery, and enhancement of mentoring services to improve outcomes for at-risk, high-risk, or underserved youth.

Mentoring provides young people with evidence-based support that improves positive outcomes and prevents them from entering the juvenile justice system. Quality early interventions that steer high-risk youth away from engaging in repeat criminal offenses can save the public nearly \$5.7 million per youth over a lifetime. At its core, mentoring provides young people with consistent, stable adults in their lives when they need it most.

Academic studies have demonstrated that mentoring improves positive social development and behavior. Young people who meet regularly with their mentors are 52% less likely than their peers to skip a day of school and are more likely to maintain better attitudes towards school. Those with mentors are also 46% less likely to start using illegal drugs, 130% more likely to hold a leadership position in a club, student government, or a sports team, and 55% more likely to enroll in college. Mentors prepare young people for higher education and careers by introducing them to resources, helping them set career goals, and even using personal networks to help them find careers they otherwise would not be able to access.

Unfortunately, one in three young people will reach age 19 without having a mentor of any kind. Funding for the Youth Mentoring Program helps close this gap and ensures program quality to produce maximum positive outcomes. Without this funding, at-risk youth in high needs areas across the nation will not have access to this important program. Funding this program at \$120 million would save federal dollars over the long-term by reducing rates of incarceration and bolstering student achievement in the areas of greatest need.

Thank you for your consideration of this matter.

Sincerely,

RICHARD BLUMENTHAL
