The Honorable Sonny Perdue  
Secretary  
U.S. Department of Agriculture  
1400 Independence Ave., SW  
Washington DC 20250

Dear Secretary Perdue:

We are writing regarding the involvement of the Department of Agriculture (USDA) with the Centers for Disease Control and Prevention's (CDC) site visit memorandum and recommendations to the Smithfield Foods Sioux Falls Pork Plant (Smithfield) during April 2020.

As you know, in response to a major COVID-19 outbreak at Smithfield, the South Dakota Department of Health (SD-DOH) requested CDC assistance in the form of an Epi Aid in order to develop recommendations to reduce transmission of COVID-19 among the plant's workers. The CDC and the National Institute for Occupational Safety and Health (NIOSH) conducted several in-person visits to Smithfield in April of this year, and on April 22, 2020, the CDC issued a site visit memorandum and recommendations to Smithfield to help reduce COVID-19 infections among its employees.<sup>1</sup> After it came to our attention that CDC issued a Version 1 of this document before issuing Version 2 on April 22, 2020, we requested—and NIOSH recently provided—a copy of Version 1.<sup>2</sup> The date on Version 1 was April 21, 2020, one day before Version 2 was issued.

According to NIOSH's responses to the Committee on Education and Labor's requests, Version 1 was cleared internally by two task forces within the CDC team before CDC subsequently replaced it with Version 2.<sup>3</sup> A comparison of the two versions shows several differences, including phrases like "if feasible," "consider," and "if possible" that appear to weaken the recommendations.

A media source has reported that USDA had been in contact with the CDC director's office during this time period. In order to better understand the reasons and process behind the changes from Version 1 and Version 2, please provide the following answers and information:

1. Copies of all emails, attachments, and other communications between the Centers for Disease Control and USDA regarding any version of the site visit memorandum, including but not limited to emails, memos or phone conversations concerning the April 20 summary or pre-clearance draft of the site visit memorandum.

2. Copies of all emails, attachments, and other communications between Smithfield, its representatives, or any other entity acting on behalf of Smithfield and USDA regarding this site visit memorandum, including but not limited to emails, memos or phone conversations concerning the April 20 summary or pre-clearance draft of the site visit memorandum.
3. Copies of any reports, notes, summaries, or other descriptions of the in-person visits received or reviewed by USDA concerning the visit that CDC and NIOSH conducted at Smithfield on April 16 and 17.
4. A list of all the versions of this site visit memorandum or any summaries that were received or reviewed by USDA, including but not limited to the pre-clearance draft that was sent to the South Dakota Department of Health on April 20, Version 1, Version 2, and any other drafts.
5. Copies of all emails, attachments, and other verbal and written communications between USDA, the South Dakota Department of Health, HHS, CDC, and/or NIOSH, regarding any version of this site visit memorandum.

Please provide the requested information by October 12, 2020.

If you have any questions, please contact Cathy Yu at (202) 225-9721 or [cathy.yu@mail.house.gov](mailto:cathy.yu@mail.house.gov). Please direct all official correspondence to the Committee's Clerk, Mariah Mowbray, at [Mariah.Mowbray@mail.house.gov](mailto:Mariah.Mowbray@mail.house.gov).
